LITBUS det flexibla hyllsystemet för bibliotek/
the flexible shelf system for libraries

LITTBUS design Börge Lindau

LITTBUS har utvecklats i nära samarbete med bibliotekarier och arkitekter för att möta behoven i dagens bibliotek.

Ekonomi, flexibilitet, funktion, genomtänkt design och miljöhänsyn är viktiga principer i utvecklingsarbetet.

- LITTBUS konstruktion består av enkla och dubbelsidiga gavlar i trä och stål, stabiliserande av ett unikt flyttbart hyllplan i lackerad stålplåt.
- Hyllplanen kan användas antingen plant eller lutande för exponering av olika typer av media.
- Gavelsystemet tillåter övergångar från grunda till djupa hyllor eller från enkla till dubbelsidiga hylluppsättningar, kopplade i en följd. Trä och stålgavlar kan även kombineras med varandra.
- Tillkommande nyutvecklade enheter skall kunna integreras i redan levererade system.
- Andra dimensioner och material levereras på begäran.

LITTBUS was developed in co-operation with librarians and architects to meet the needs of today's library.

Economy, flexibility, function, well thought-out design and environmental considerations are the fundamental elements in the system's design.

- The structure comprises single or double-sided end panels in wood or steel connected by a unique steel shelf.
- The shelf can be used either flat or sloping for the display of different forms of media.
- The system uniquely allows for the transition from single to double sided units and from shallows to deep shelves within a run of library bays.
- All new developments are designed so as they can be incorporated into existing.
- Other dimensions and finishes are available upon request.

LITTBUS är självstabiliserande i en konstruktion utan ramar och kryss vilket ger utrymme för stor flexibilitet samtidigt som golvyta sparas.

LITTBUS är testad för att motsvara högt ställda krav och eftersträvar kostnadseffektiva och miljöriktiga material för lång livslängd och enkelt underhåll.

LITTBUS består av bl.a

- hyllor i fyra standardhöjder
- hyllor i tre standarddjup
- hyllor i tre standardbredder
- bokvagnar
- förvaringssystem
- diskar
- studieplatser
- frågeterminaler
- tillbehör
- belysningssystem

LITTBUS is a self-supporting structure without the need for frames or cross brace supports. The structure gives flexibility and saves floor space.

LITTBUS has been tested to fulfil the high standards required for use in contract areas and offers cost efficient environmental materials for durability and easy maintenance.

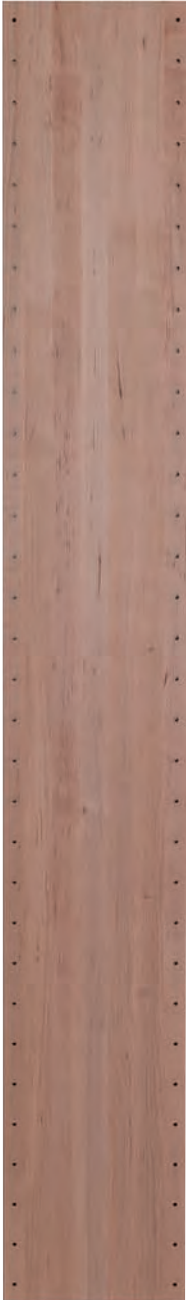

The LITTBUS system consist of:

- shelves in four heights
- shelves in three depths
- shelves in three widths
- book trolleys
- media display system
- counters
- study tables
- PC terminal tables
- accessories
- lighting fixture systems

LITTBUS

TRÄ/WOOD

Al gavel.
Alder end panels.

Björk gavel.
Birch end panels.

STÅL/STEEL

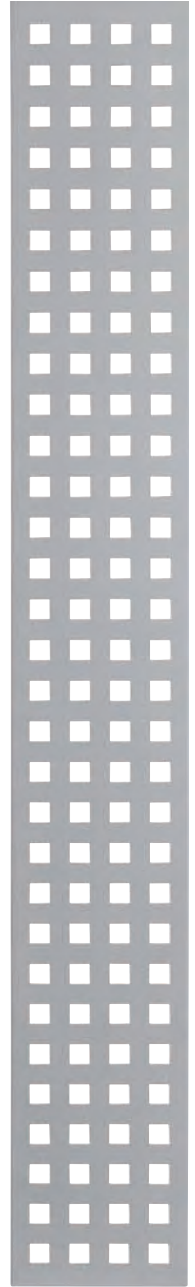

Stål gavel.
Steel end panels.

GLAS/GLASS

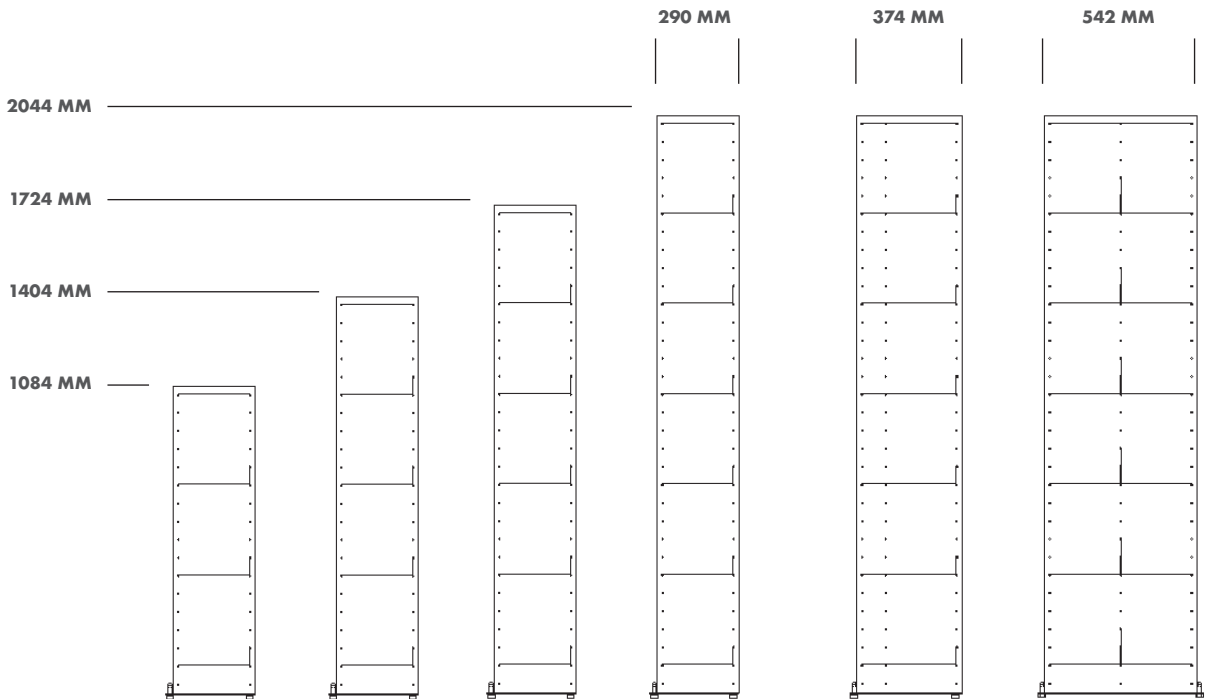

Frostat glas för
gaveltäckning till
stålgavel.
Frosted glass /
covering to steel
bookcase ends.

PERFORERAD PLÅT PERFORATED STEEL

Perforerad plåt
för gaveltäckning
till stålgavel.
Perforated steel/
covering to steel
bookcase ends.

LITTBUS

Gavlar av trä

- massiv stavlimmad al eller björk
- algavlar levereras som standard obehandlade
- gavlarna vaxas, oljas eller lackeras på begäran
- björkgavlar levereras lackade som standard
- gaveldjup 290, 374 och 542 mm
- gavelhöjd 1084, 1404, 1724 och 2044 mm

Gavlar av stål

- lackerade som standard i zinkgrå pulverlack med struktur
- gavelsidor av frostat glas eller perforerad stålplåt
- gaveldjup 290, 374 och 542 mm
- gavelhöjd 1084, 1404, 1724 och 2044 mm

Höjdmått är gavelns höjd exklusive justerfotens minimihöjd 25 mm

Hyllplan

- av 1,5 mm stålplåt, pulverlackerad i grå kulör RAL 9007
- lacktjocklek 80 my
- vändbart och kan användas plant eller lutande
- längd är 491, 700 och 875 mm
- djup 252, 336 och 2 x 252 mm
- tjocklek är 14 mm

Breddmått mellan gavlar är 516, 725 och 900 mm c/c

End panels in wood

- solid alder or birch
- end panels in alder are untreated as standard
- end panels can be waxed, oiled or lacquered upon request
- end panels of birch are lacquered as standard
- depth of end panels 290, 374 and 542 mm
- height of end panels 1084, 1404, 1724 and 2044 mm

End panels in steel

- powder coated zinc grey
- decorative cover of frosted tempered glass or perforated sheet steel
- depth of end panels are 290, 374 and 542 mm
- height of end panels 1084, 1404, 1724 and 2044 mm

The height of the panels does not include the feet which are 25 mm

Shelves

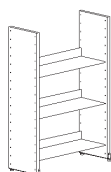

- powder coated sheet steel RAL 9007, 1,5 mm thick
- the thickness of lacquer is 80 my
- reversible for flat or sloping display
- the shelves width are 491, 700 and 875 mm
- the shelves depth are 252, 336 and 2 x 252 mm
- the thickness of the shelves are 14 mm

The width of bays are 516, 725 and 900 mm c/c
